Southeast High School

Dear Parent or Guardian,

June 1, 2020

Our school is excited to announce a new School Based Health Center at Southeast High School! This work is a partnership of MCR Health, School District of Manatee County, and your school clinic to provide high quality health care for students attending Southeast High School. School nursing and emergency services will still be provided as always whether you consent to the School Based Health Center or not. There are over 2,500 School Based Health Centers (SBHCs) in the United States and use of these centers has been linked to improved academic outcomes, such as improved GPAs, attendance, grade promotion, college preparation, and reduced rates of suspensions. The goal of this program is to improve academic outcomes by improving the overall health status of students through shared school based and community resources, providing a culture of learning and future success. This falls right in line with the Manatee County School District Mission of providing education and development to all students today for their success tomorrow.

The existing school clinic staff will continue to manage the day to day oversight of school health. The School Based Health Center will complement the school clinic by being available to all students, including those without health care, and those in need of services such as primary, mental, oral or vision care. Even if your child already has a primary care doctor, he/she can still benefit from our health services should a problem arise in school.

\*For your child to receive health services in the new School Based Health Center, a parent or legal guardian must read, complete, and sign the application package/consent forms that are attached. Utilization of the SEHS School Based Health Center is optional.

"All student information will be protected by the Health Insurance Portability and Accountability Act, a US law designed to provide privacy standards to protect patients' medical records and other health information provided to health plans, doctors, hospitals and other health care providers."

Southeast High School is ready to take the lead with the first School Based Health Center in Manatee County, because healthy students are the future of tomorrow.

Sincerely,

Rosa Faison Principal

\*Due to different regulatory requirements, you will need to duplicate some information on the MCR Consent for Services and the School Based Health Center Consent for Services. The good news is that this information will stay on file throughout your child's stay at SEHS.

# SEHS School Based Health Center Program Description

## What is a School Based Health Center?

A school-based health center is a shared commitment between a community's schools and health care organizations to support students' health, well-being, and academic success by providing preventative, early intervention, and treatment services where students are - which is at school.

Students can be treated for acute illnesses, such as flu, and chronic conditions, including asthma and diabetes. They can also be screened for dental, vision and hearing problems. With an emphasis on prevention, early intervention and risk reduction, school-based health centers counsel students on healthy habits and how to prevent injury, violence and other threats.

The existing school clinic staff will continue to manage the day to day oversight of school health. The School Based Health Center will complement the school clinic by being available to all students, including those without health care, and those in need of services such as primary, mental, oral or vision care. Even if your child already has a primary care doctor, he/she can still benefit from our health services should a problem arise in school.

### Why are we partnering with MCR Health?

For 40 years MCR Health has upheld the definition of community by embracing diversity and providing health care to our community and assisting those in need by collecting supplies for school children, hosting an annual holiday toy drive for underprivileged children, sponsoring sports teams, and civic clubs. MCR Health is a private, nonprofit medical group providing family practice, pediatrics, OBY/GYN, behavioral health, vision, dental and many other services. They have more than 25 health centers, two mobile units, 11 pharmacies and six administrative sites. They are one of the largest, most diversified Federally Qualified Health Centers in the southeastern U.S.

### How will this center work?

- You must complete the consent/application forms, which are available at the administration front desk, guidance desk, school clinic, portable #423, or on the SEHS website. Your student can bring the completed paperwork to the main office, ATTN: School Based Health Center, or to portable #423.
- You or your child may contact the SBHC at 941-741-3366 or 941-245-0056, and schedule appointments for physicals, immunizations, required sports and/or employment physicals, or other associated health and mental concerns once we have consents on file. The SBHC will also have a schedule of when the MCR Health vision and dental van will be here so you can schedule these appointments ahead of time.
- The School Based Health Center hours will be Monday through Friday 7:00am 4:00pm when school is in session.
- If your child is feeling sick or injured at school, they will continue to go to the School Clinic, and the current Department of Health School Nurse or Medical Technician will determine if your child would benefit from further care and follow up at the School Based Health Center. If you have a consent on file, they will refer your child directly to the Health Center, and any necessary treatment and prescriptions will be provided. If your child does not have a consent on file for the School Based Health Center, the school clinic staff will follow their current procedure.
- The School Based Health Center does not take the place of your child's regular doctor and joining the program does not mean you are changing your child's doctor. You will be encouraged to have any needed follow up care with that physician and a summary of your child's visit at the School Based Health Center will be sent to your child's doctor. If your child does not have a regular doctor, then the staff and SBHC can serve in that role. If your child is already a patient of MCR Health, you will still have to sign consents to utilize the SEHS School Based Health Center.

# ANNUAL CONSENT FORM

# CONSENT FOR TREATMENT AND INSURANCE

I hereby give permission for the medical and /or dental staff of MCR Health to treat and prescribe medications, as they feel necessary on me or my  $\Box$  Child  $\Box$  Spouse. I, as parent, legal guardian or responsible adult, must accompany my child to MCR Health and stay with them throughout the entire examination.

My spouse has either given me permission to request treatment from MCR Health on his/her behalf or has been granted by a court of competent jurisdiction and I will submit the authority to MCR Health.

This consent is freely and voluntarily entered into authorizing MCR Health to release any of the following information to my insurance company or any other paying source in order that direct payment can be made to the above institution in my behalf. I hereby agree and covenant that in consideration for the treatment of me or my  $\Box$  Child  $\Box$  Spouse, I will pay the cost of this said treatment.
