

# Sora

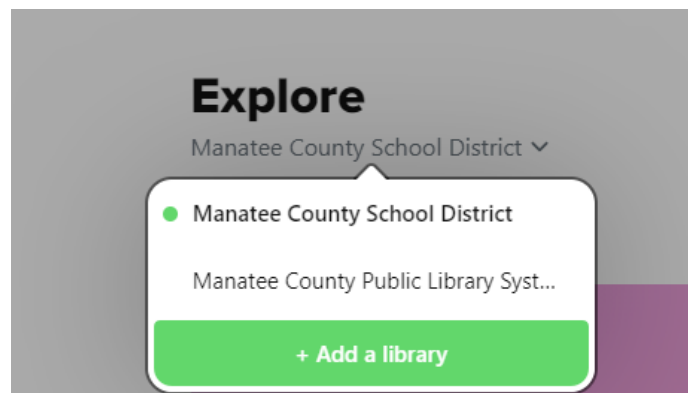

*Free eBooks and eAudiobooks through the Manatee County School District and the Manatee County Public Library System*

Students and staff should now see the SORA tile when they login to ClassLink. From there, students and staff will be able to access the Manatee County Public Library System's eBook and eAudiobook collection with their Single Sign On, NO public library card needed! *Users can also access SORA through their devices using the SORA app.*

---

To see the Public Library collection in SORA, users will need to add it under "Explore"

in the top left corner and then they will be able to toggle between the small starter District collection and the much larger Manatee County Public Library System's collection. The process should be the same in either the browser or app.
